information service**

*Local Finance Teams have an important role to manage processes that are critical on the profitability and the airline cash-flow as well as ensuring the integrity of the financial results.*

*In the current environment of cost containments and needs of ensuring collections, successful local Finance Managers need to have efficient, user-friendly and powerful information services to support them on the daily operations with immediate availability in order to free them from the administrative tasks and focus on what matters.*

*Accelya has been a leading information service solutions provider in the airline industry for more than 30 years and its eFirst Service provides the Finance Departments with a highly valuable information service to help them on their daily duties.*

# Immediate access to sales data to support your daily operations

## Presentation

eFIRST is Accelya's web-based data warehouse service that provides dynamic and immediate access to sales data to support Finance Departments in their daily operations.

From an exhaustive and powerful search engine to a management information application based on intuitive screens, eFIRST will provide you with instant information of your travel agent sales.

eFIRST is so powerful that it will save you time and allow you to focus on your key functions.

## Main Features

### ► POWERFUL TICKET SEARCH ENGINE

eFIRST provides you with a wide range of selection criteria:

- By document number / range of documents
- By issuing details (issue date, agent code)
- By payment details (cash/credit sale, credit card company, amount paid)
- By reporting period
- By transaction code

And many more

### ► STRONG DRILL-DOWN CAPABILITIES

eFIRST offers drill-down capabilities down to ticket level, including the option to visualise the ticket facsimile.

### ► INTUITIVE INTERFACE

eFIRST reporting is very intuitive as it is based on Microsoft Excel, therefore, training requirements are very limited.

### ► EXHAUSTIVE GRAPHICAL DISPLAY OF THE RESULTS

eFIRST allows you to choose between 60 different types of graphics and data tables to complement your reports.

### ► STANDARD REPORTS AND AD-HOC REPORTS

eFIRST allows you to create a set of pre-defined, standard reports as well as generate ad-hoc reports.

### ► EXCEL AND CSV EXPORT FUNCTIONALITIES

### ► FULLY SECURED, WEB-BASED SERVICE

## Key benefits

### ► OBTAIN IMMEDIATE ANSWERS TO ALL SORT OF QUERIES COMING FROM YOUR SUPERIORS AND HEAD OFFICE

eFIRST provides you instant ad-hoc dynamic reports to quickly answer such queries.

### ► CREATE EASILY DYNAMIC REPORTS ABOUT CREDIT CARD SALES

eFIRST gives you dynamic reports based on credit card sales from credit card totals down to credit card transaction.

### ► FACILITATE THE RECONCILIATION OF YOUR CREDIT CARD SALES WITH YOUR COLLECTIONS

eFIRST exhaustive credit card information will allow you to efficiently monitor the collection of your credit card sales.

### ► GET INSTANT INFORMATION ABOUT SALES COMMISSIONS

eFIRST will give you instant access to agent sales' commissions and provide you several criteria to perform in-depth analysis down to ticket level.

### ► OBTAIN DETAILED INFORMATION ABOUT TAXES

eFIRST provides you with detailed reporting about taxes.
