

Electronic invoicing service for Billers

Would you like to respond to clients requesting paperless invoices? Are you interested in integrating an innovative solution into your service and in generating a competitive advantage?

E-invoicing your clients will allow you to differentiate yourself from your competitors, reduce your administrative costs and optimise your invoicing processes.

React rapidly to your clients' requests

A simple and centralised answer

Clear' Invoice fully integrates into your business' existing structure and adapts to the specificities of your clients, whatever the requested data format (structured format, free format, electronic signature, etc.), whatever the information system used (ERP or other compatible system), and regardless of the size of the company.

Total invoice management

Clear' Invoice covers all invoice processing with regard to your clients, whatever the required format. For the transition towards being 100% electronic, printing and enveloping services can also be proposed.

Create a competitive advantage with an innovative offer

Fast and simple access for all your clients

Thanks to its highly advanced functionalities, the Clear' Invoice portal enables you to give each of your clients fast and simple access, so that they may view their invoices and process them better. You will reduce approval time and, thus, benefit from improved payment cycles.

A flexible service, with professional and functional modules

The service's flexibility and ability to evolve allow you to anticipate your clients' needs and offer them supplementary services such as reporting, collaborative space, and addition of supporting documents, amongst others.

Reduce the administrative costs of outgoing invoices

Significant reduction of direct costs

Thanks to support, methodology and efficient tools, you will rapidly and effectively progress towards 100% electronic billing, thereby eliminating printing, enveloping, stamp and sending costs, additionally you will reduce payment periods.

A tool for follow-up and monitoring

Thanks to our electronic notary, you can follow the processing of the invoices you send in real-time and save a detailed history of all your client exchanges.

What our clients say:

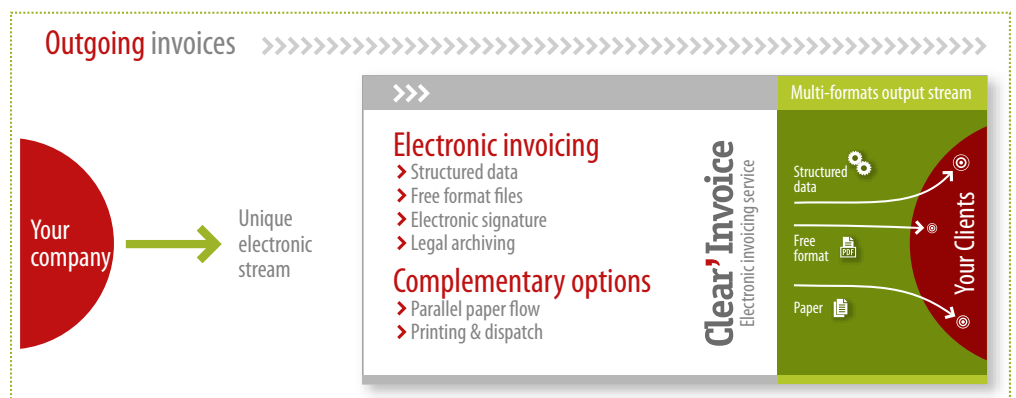

Mrs. Marjorie PILLET,

Major Accounts and Partnerships Manager

Autoroutes Paris-Rhin-Rhône,
Europe's 4th largest motorway group

« In order to implement a new range of innovative service offer, we were looking for a service provider capable of managing our electronic flows and producing reporting elements to meet our corporate customers' needs.

Clear' Invoice appealed to us with its flexibility and adaptability. Accelya's listening ear and responsiveness were also decisive factors in our choice. »

ACCELYA supports you
