Clear' Invoice

Electronic invoicing service for Buyers

Would you like to reduce your company's invoice processing costs and optimise your internal processes?

E-invoicing of your suppliers' invoices will allow you to directly integrate invoicing data into your information system, which will significantly reduce costs and increase the reliability of the processes applied within your company.

Automate the integration of your invoices

A solution adapted to each of your client's requirements

Clear' Invoice adapts to the IT equipment and size of each of your suppliers: invoices with all kinds of formats can be collected or even input directly via a Web portal.

A single platform for all kinds of formats

Clear' Invoice adapts to the data structure of each of your suppliers and returns all of this data in the format required by your information system. Scanning services may be put in place during the transition to 100% electronic billing.

A tool for follow-up and monitoring

The Clear' Invoice electronic notary saves all of the details with regard to the invoices received from your suppliers. It also gives you access to all of the exchanges carried out with your suppliers.

Optimise the processing of your incoming invoices

Faster processing of incoming invoices

The data from your suppliers' invoices is directly integrated into your information system in order to avoid any data re-capture, thus optimising tasks in your departments.

Simple and quick access to invoices throughout the organisation

The invoice workflow module enables the concerned departments in your organisation to view all of the invoices and supporting documents and approve them easily and quickly through a pre-established workflow.

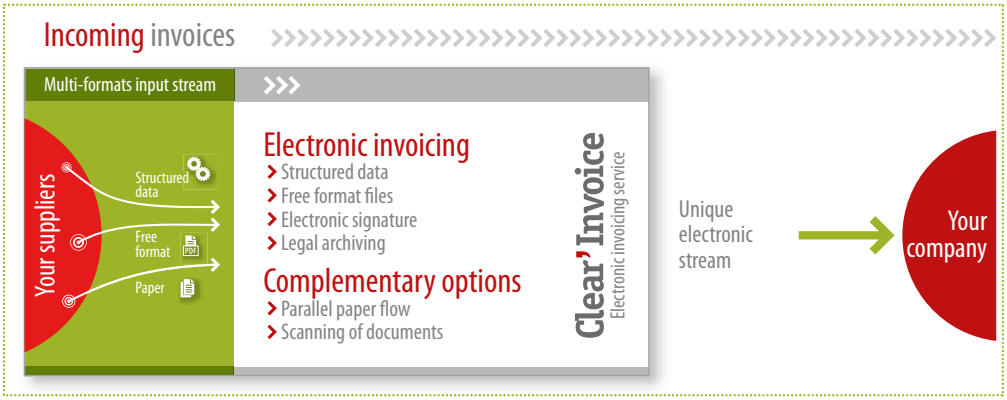
Reduce your processing costs

Significant reduction in the time devoted to disputes

Clear' Invoice has an integrated collaborative space, which allows you to directly manage disputes with your suppliers and to reduce the time spent on resolving them.

Sizeably decrease in direct and indirect costs

Direct integration of your invoicing data, elimination of paper documents and input tasks, reduction of disputes, improvement in your invoice processing, etc. will greatly reduce costs to your company.



What our clients say:

Patrick JOLY,
Director of Purchasing,

Mondial Assistance France

« Accelya was selected for its partnership approach and its ability to provide support over the long term. These were criteria for the success of our project.

Their methodology for project implementation and deployment gave our project an ambitious scalability.

The involvement of the Clear' Invoice teams and their effort to understand our mode of operation convinced us. »

ACCELYA supports you

Real understanding of your organisation, processes and constraints allows our teams to offer you the best approach to developing the most suitable solution and deploying it amongst your suppliers.
