Dear Shareholders,

I am pleased to share with you that we have seen growth in our revenues and earnings for FY 2017.

Total revenues for FY 2017 stood at ₹ 3,788 million and net profit after tax was at ₹ 913.43 million. This is a 8.25% growth in revenues and 10.02% growth in PAT as compared to FY 2016.

Accelya Kale continued the practice of rewarding its shareholders with dividends. This year, the total dividend is ₹ 51 per share, including ₹ 40 per share recommended as final dividend. I would like to

inform you that on 9th August 2017, Mr. Vipul Jain stepped down from his position as Director. I would like to thank Vipul on behalf of the Board for his valuable contribution.

This year, our revenue accounting platform, REVERA[®], surpassed 1 billion transactions. In addition, the REVERA Strategic Product Group (SPG) program was recognized for taking customer collaboration to the next level at ITSMA 2016 Marketing Excellence Awards. REVERA SPG is a board comprised of customer representatives and product specialists from Accelya; their charter is to ensure the most beneficial features are added to the product roadmap thereby giving the best solution to our customers.

I am also delighted to share that we were recognized as 'Service Provider of the Year 2017' by Air Transport News (ATN). Accelya also featured in the International Association of Outsourcing Professionals (IAOP) Global Outsourcing 100 List 2017, a list of the leading outsourcing firms in the world.

We have witnessed good traction for our cost management solution, FinesseCost[™]. We have added two new customers this year, taking the total to six airline customers including two tier one airlines and one low cost carrier.

This year, we transitioned the ownership of the Accelya Group to Warburg Pincus, a global private equity firm focused on growth investing. Warburg Pincus acquired majority shares in the Group and also holds majority shares in Mercator, a global provider of software platforms and product-enabled solutions to the travel and transport industry. As a result, customers of Accelya and Mercator will benefit from enhanced product and technology capabilities. The combined group will ensure the continuous development of new solutions for the travel and transport industry.

I look forward to your continued support as we enter the new financial year.

Yours truly,

Neela Bhattacherjee Managing Director

- Biman Bangladesh, the flag carrier airline of Bangladesh, selected Accelya Kale's Finesse Flight Profitability System to aid its network expansion

In an endeavor to bring best in class solutions to customers, the Company launched the following new initiatives:

- Connect2ERP[™] solution version 2.0 was launched on SAP-certified integration with the SAP[®] ERP application. This will enable airlines to better integrate their accounting systems and financial solutions.
- APEX[®] Miles was built to leverage Accelya Kale's APEX Proration, the industry-recognised proration engine. It accurately derives revenue-based earned miles while supporting existing airline mileage charts based on distance, RBD (Reservation Booking Designators), or a combination of these.

ACQUISITION BY WARBURG PINCUS

During the year, Warburg Pincus, a global private equity firm focused on growth investing, acquired Accelya Holding Luxembourg S.A. from Chequers Capital and through this, a controlling interest in the Accelya group of companies.

An Open Offer for acquisition of upto 3,782,966 equity shares of ₹ 10 each representing 25.34% of the voting share capital of Accelya Kale Solutions Limited ("the Company") was made pursuant to the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 (as amended) to the public shareholders of the Company by Sky Bidco S.L.U. (Acquirer) along with Canary Topco Limited (PAC 1), Canary Holdco Limited (PAC 2), Canary Finco Limited (PAC 3), Canary Midco Limited (PAC 4) and Sky Holdco Limited (PAC 5).

The Open Offer commenced on 26 April, 2017 and closed on 11 May, 2017.

A total no. of 171 shares were tendered in the Open Offer. These shares were acquired by Canary Topco Limited. As a result of this acquisition, the total promoter group shareholding increased from 11,143,295 to 11,143,466.

Warburg Pincus is also the majority shareholder of Mercator, (a global provider of product-enabled solutions to the travel and transportation industry).

Together, Accelya and Mercator are leading global technology-enabled solutions providers to airlines, travel agents and freight forwarders. The combined group now offers a broadened product portfolio with complementary offerings including revenue accounting, revenue management and revenue assurance, cargo management, payment solutions, data analytics, cost management and commercial solutions. Customers of Accelya and Mercator will benefit from enhanced product and technology capabilities, which will ensure the continued development of innovative solutions for the travel industry. With a global footprint and more than 400 clients worldwide, including 250 airlines, the Accelya group which now includes Mercator, will be at the forefront of automation, helping customers manage their financial processes more efficiently, minimizing revenue leakages, reducing operational costs and optimizing management of their indirect distribution channel.

- (e) who, neither himself nor any of his relatives—
 - holds or has held the position of a key managerial personnel or is or has been employee of the Company or its holding, subsidiary or associate company in any of the three financial years immediately preceding the financial year in which he is proposed to be appointed;
 - (ii) is or has been an employee or proprietor or a partner, in any of the three financial years immediately preceding the financial year in which he is proposed to be appointed, of—
 - (A) a firm of auditors or company secretaries in practice or cost auditors of the Company or its holding, subsidiary or associate company; or
 - (B) any legal or a consulting firm that has or had any transaction with the Company, its holding, subsidiary or associate company amounting to ten per cent. or more of the gross turnover of such firm;
 - (iii) holds together with his relatives two per cent or more of the total voting power of the Company; or
 - (iv) is a Chief Executive or director, by whatever name called, of any nonprofit organisation that receives twenty-five per cent or more of its receipts from the Company, any of its promoters, directors or its holding, subsidiary or associate company or that holds two per cent or more of the total voting power of the Company; or
- (f) who possesses the qualifications prescribed in (1) above.

6. Evaluation of Performance of Independent Directors

Every independent director shall self-evaluate his performance and shall submit a report on his self-evaluation to the Chairman of the Company.

The Chairman shall review the performance of the independent director and provide feedback as appropriate.

PART B

Remuneration Policy

1. Objective

The Nomination and Remuneration Committee of the Board of Directors ("the Committee") of Accelya Kale Solutions Limited (the "Company" or "AKSL") has adopted the following policy and procedures with regard to remuneration to the directors, key managerial personnel and other employees of the Company. The Committee may review and amend this policy from time to time.

In determining the remuneration & compensation, the Company shall take into consideration individual performance of the employee and company performance determined through the process of annual appraisals.

The remuneration and compensation policy of the Company aims to attract, retain and motivate employees.

The remuneration to the managing director, key managerial personnel and senior management involves a balance between fixed and variable pay reflecting short and long-term performance objectives appropriate to the working of the company and its goals.

This policy is intended to ensure that all necessary approvals are obtained and all reporting requirements are duly complied with in respect of remuneration of directors and key managerial personnel of the Company.

2. Effective Date

This Policy is effective from 1 April 2014.

3. Remuneration

A. Independent Directors and Non-Executive Non-Independent Directors

a) Commission

Annual Report on Corporate Social Responsibility (CSR) activities for the financial year 2016-17 [Pursuant to Companies (Corporate Social Responsibility Policy) Rules, 2014]

Accelya Annual Report on Corporate Social Responsibility

Corporate social responsibility (CSR) has become one of the standard business practices of our time.

For companies, the overall aim is to achieve a positive impact on society as a whole while maximizing the creation of shared value for the owners of the business, its employees, shareholders and stakeholders.

As an organization committed to CSR, we have been continuing to support Catalysts for Social Action, with a focus on improving living conditions, developmental aspects & aftercare support for children in childcare institutions/orphanages and on increasing the number of children available in the adoption stream.

1. Introduction

Catalysts for Social Action ("CSA") is an Indian NGO (non-governmental, social development organisation) with a mission to create a brighter future for orphans in need of care and protection.

CSA is one of the few NGO's focused on children in institutional care. Their areas of work cover the entire eco-system spanning Adoption, Orphanages and Aftercare that are included under the Juvenile Justice Act and the Integrated Child Protection Policy. Within these areas, they have identified the gaps and work with existing institutions and stakeholders to fill these gaps and strengthen the systems and processes.

CSA is making a valuable difference to 3200+ children across 60+ child care institutions in 4 states that they work out of.

I. Project SAMBHAV

Model Child Care Institution support

Goal is to improve child care outcomes at childcare institutions, build sustainable capacity & capability of the CCI and empower every child to a decent livelihood & independent living. In this way, we will help these become 'Model Child Care Institutions'

Under this project, **14** CCIs/Orphanages supported covering **1200+** children across the states of Goa, Maharashtra & Odisha.

There has been significant improvements in the following areas which have enhanced child care outcomes at these CCIs in the past year –

- Health 2 Health checkups done, deworming done & all ailments reported have been treated. On the whole, children are keeping good health and the frequency of children falling sick has reduced.
- Health 1200+ children vaccinated for Hepatitis A & MMR (Measles, Mumps & Rubella also called German Measles)
- Hygiene Kits Basic and additional hygiene items have been given to all children twice a year
- Nutrition Supplementary nutrition is being provided; nutritionists are onboard in all states to suggest & monitor food items. There has been an improvement in the BMI (Body mass Index) level of children with 73% children in the normal range
- Education In this program, **29** after school tuition teachers support provided; internal assessments showed **35%** improvement in Language & **28%** improvement in Maths
- Education 111 children appeared for their SSC Board exams, of which, 92% passed & 49% children passed with 1st class results
- Life Skills Life skills sessions done with **316** children in 14+ age group. Overall improvement of **38%** in life skills competencies such as communication, self-awareness, critical thinking & collaboration

- Adolescent Health Program In-depth training on sexual health & related topics was conducted for **172** children in 14+ age group
- Raising Standards of CCIs Evaluation of CCIs on various parameters related to child care around the basics, developmental, aftercare support & CCI management is done via CSA assessment tool on a yearly basis. This year, overall standards improved by 6%

Aftercare & Livelihood support

As children get older, they have to be prepared for the time when they turn 18 and have to leave the orphanage and start earning and become independent members of society. There is a big gap in this area.

Goal is to provide livelihood training, support and job opportunities so that children after the age of 18, when they can no longer remain at the orphanage, are able to earn and start building an independent life with confidence.

As part of the Aftercare program, following activities were undertaken -

- Identification of children who require aftercare support
- Provide mentoring to children towards available courses / higher education options based on academic performance, child's interest & aptitude
- Provide career awareness & counseling, financial literacy, aspirational coaching, field based learnings, field visits to offices & industries, job readiness & post job placement hand holding
- Tie ups with training institutions, skill development organisations etc.

II. Project CAP (Child Adoption Program)

Goal is to identify children at child care institutions / orphanages with no parental contact and making them legally free for adoption.

We continued to implement this project in the states of Goa, Maharashtra, Madhya Pradesh & Odisha through identification of children with no parental, contact, conduct social investigations through social workers, submitting reports to Child Welfare Committees (CWC) & follow ups to make children legally free. We have also been conducting district & grass root level awareness workshops.

Some highlights of project CAP in the past year are as follows -

- No. of CCIs from where data of children has been collected 198 in 4 states
- No. of children assessed 11,581
- Children identified without Parental Contact 952
- No. of children declared legally free by CWC 136

INDUSTRY OUTLOOK:

GLOBAL TRAVEL SECTOR:

2016 was a strong year for the airline industry. For the second time in the history of the industry, earned return on invested capital (9.9%) exceeded cost of capital (estimated at 6.6%). According to the International Air Transport Association (IATA), 2017 is expected to be the eighth year in a row of aggregate airline profitability. IATA has made the following forecast for the airline industry in 2017:

- The airline industry is expected to transport approximately 4 billion passengers and 58 million metric tons of cargo in 2017 compared to 3.8 billion passengers and 54 million metric tons of cargo in 2016.
- The airline industry's revenue is estimated at \$743 billion with profit of \$31.4 billion; this is 4.2% net profit margin. In 2016, the industry revenue is estimated at \$705 billion with profit of \$34.8 billion at 4.9% net profit margin.
- Airlines are expected to make a profit on average of \$7.7 for every passenger carried in 2017 as compared to \$9.1 in 2016.

According to the Airline Finance Professionals Outlook 2017 (AFPO)*, 66% respondents believe that airline financial health has improved over the last year. Overall the airline industry is optimistic about future growth in air travel and cargo.

ACCELYA GROUP'S STRATEGY:

Airlines face a complex operating environment and are looking at ways to simplify their business processes and make them efficient and agile.

Accelya helps airlines integrate and simplify their financial processes; to better manage costs, risks, revenue leakages, cash flows, profitability and overall business performance. Accelya partners with airlines right from the time a ticket or an air waybill is issued, all the way through its entire financial lifecycle and until the data is converted to actionable intelligence.

Accelya is a market leader in financial solutions to the airline industry with a comprehensive portfolio covering revenue accounting, cost management, payment solutions and revenue assurance. The Company's strength lies in its unique business model where the platforms are on a hosted environment; and also additionally "Service Cubes" which are

optional services through our Managed Process Service (MPS) centres. The customer also has the opportunity to fully outsource these services.

Accelya's commercial solutions help airlines steer sales and strengthen their business relationship with travel agents. It provides insights on airline sales performance, agent performance, route performance and instantly identifies potential for growth. It also helps airlines manage agent incentive program for higher agent satisfaction. Accelya also provides critical industry solutions by partnering with IATA.

Backed by solid data, Accelya's analytics and consulting solutions enable airlines to take informed decisions by forecasting market trends, identifying revenue opportunities and optimizing costs.

Accelya's pay-per-use business model further helps airlines avoid upfront capital investments and releases cash flow for other priorities. It also provides Accelya Group annuity revenue streams ensuring forward revenue visibility.

ACCELYA GROUP UPDATES:

This year, the Accelya Group transitioned ownership to Warburg Pincus, a global private equity firm focused on growth investing. Warburg Pincus acquired majority shares in the group and also owns majority shares in Mercator, a global provider of software platforms and product-enabled solutions to the travel and transport industry. With Warburg Pincus backing, Accelya and Mercator will operate under a single brand. John Johnston, current Chief Executive Officer of Accelya was appointed Chief Executive Officer of the combined group. The combined entity will benefit from enhanced product and technology capabilities which will ensure the continued development of new solutions for the travel and transport industry. The combined group has revenues of \$200+ million and over 400 customers, including 250 airline customers.

Accelya has recently acquired Anari, a global provider of revenue integrity solutions, to further enhance its airline commercial optimization portfolio.

Accelya Group won the coveted Air Transport News (ATN) Service Provider of the Year 2017 Award. Accelya also featured in the International Association of Outsourcing Professionals (IAOP) Global Outsourcing 100 List 2017, a list of the leading outsourcing firms in the World.

ACCELYA KALE UPDATES:

Throughout the year, the Company experienced good traction in its revenue accounting and cost management solutions. Some of the highlights include:

- Accelya Kale surpassed 1 billion transactions per annum on its revenue accounting platform REVERA
- El Al, the national carrier of Israel, selected Accelya Kale's REVERA® for passenger revenue accounting
- The REVERA Strategic Product Group (SPG) program was recognized for taking customer collaboration to the next level at ITSMA 2016 Marketing Excellence Awards
- FinesseCost[™], our cost management solution, added two new customers this year. With these additions, FinesseCost has a total of six airline customers including two tier one airlines and one low cost carrier.
- Biman Bangladesh, the flag carrier airline of Bangladesh, selected Accelya Kale's Finesse Flight Profitability System to aid its network expansion.

In an endeavor to bring best in class solutions to customers, the Company launched the following new initiatives:

- Connect2ERP[™] solution version 2.0 was launched on SAP-certified integration with the SAP[®] ERP application. This will enable airlines to better integrate their accounting systems and financial solutions.
- APEX[®] Miles was built to leverage Accelya Kale's APEX Proration, the industry-recognised proration engine. It accurately derives revenue-based earned miles while supporting existing airline mileage charts based on distance, RBD (reservation booking designators), or a combination of these.

ACCELYA KALE'S MAJOR OFFERINGS:

REVERA®- Revenue Accounting Solution: Accelya Kale has more than 25 years of experience in revenue accounting and helps airlines process over 1 billion revenue accounting transactions annually. In this category we are considered to be one of the leaders in the industry.

The REVERA suite of solutions enables airlines to streamline and simplify revenue accounting across passenger, proration, interline, cargo and airmail. The REVERA suite includes REVERA PRA, APEX[®] Proration, REVERA Interline, REVERA CRA and REVERA Airmail.

Accelya Kale pioneered the concept of platform based BPO for the airline industry. This business model offers outsourced services on the REVERA platform and combines domain expertise with service orientation (as per SLAs). RISKS, CONCERNS AND RISK MITIGATION:

Increasing competition

New providers and existing technology vendors are foraying into the airline IT and finance domain. At Accelya Kale, we are constantly investing in our people, solutions and processes to ensure maximum value to our customers. Our in-depth knowledge of the industry and its requirements make Accelya Kale the partner of choice for airlines.

Uncertain economic environment

The airline industry is amongst the first to be impacted by any major economic or political situations.

Accelya Kale is in a good position to mitigate this risk. The Company has a global customer base. The Company has long term contracts with its customers which generates annuity revenues and provides good visibility on business.

Regulatory Risk

Proposed legislation in certain countries in which Accelya Kale operates, may restrict airlines in those countries from outsourcing work to the Company, or may limit its ability to send employees to certain client sites. Accelya Kale has employees of different nationalities which helps in mitigating this risk to a certain extent.

Currency Volatility

Being a global organization dealing with global customers, volatility in currency exchange movements may affect the results of Accelya Kale's operations. The Company has currency hedging policies and practices in place which are regularly reviewed to mitigate this risk.

Resource Availability

Accelya Kale is in an industry driven by domain knowledge and intellectual property and the Company's success depends in large part on its ability to attract and retain talent. A strong HR process to identify competency and skill gaps on a continuous basis, a well-defined hiring program, and competency development of the Company's employees continue to be key areas of strategic focus for Accelya Kale.

NDC and ONE Order Initiatives

IATA is currently working on NDC and ONE Order initiatives which may have an impact on airline financial processes. The Company is actively participating in NDC and ONE Order forums and working groups to identify opportunities and challenges that may have an impact on our business.

Human Capital

At Accelya we are committed to enable a forward thinking team that is driven to innovate. Our human capital model is built around creating systems and processes that enable us to unlock people and organizational potential, while keeping a focus on continuous improvement by keeping track of important people metrics.

Some of these key metrics imperative to our business are shared below. It is our endeavor to...

2017 (July 2016 to June 2017)	22.12%	8.41%	12.04%

For the last year, some of the key programs that we were focused on are summarized below:

Creating an integrated collaborative global team

Dovetailing from our acquisition by Warburg Pincus and our integration with Mercator, one of our biggest focus areas this year has been around creating a framework for a fully integrated collaborative global team and new operating models for the combined entity. With the two companies coming together, we are now the undisputed industry leaders for air travel and logistics industry solutions. These changes bring about exciting opportunities for our team and we are working to integrate our teams across different entities and geographies, implementing target operating models and bringing in the benefits of creating a stronger, collaborative, focused global team that can sustain & grow our business.

Designing processes that align our global workforce

While we work to ensure a smooth transition during this integration process, we are also working to create global processes and standardising our ways of operating across the globe. One of the projects currently underway is DRIVE – our global performance management framework. DRIVE is a cohesive system that aligns all our global businesses under a consistent performance management framework that drives business objectives and aligns individual performances to them. It is a holistic approach to personal development career growth and compensation that encourages performance

team work and cross functional collaboration. DRIVE will be effective from fiscal year 2018 and we are working across the globe to train our employees on this refined process and enable the effective implementation across the organisation.

'Great Places to Work' Employee Engagement Program

Another global people initiative we launched this year was 'OurVoice@Accelya', an employee engagement survey. This was our first ever global survey across all our locations and was done in partnership with 'Great Places to Work Institute'. Great Place to Work assessment services are based on their global research of best workplace cultures and programs, providing organizational leaders with objective data, benchmarks, and focused priorities to help them make powerful improvements in their workplace cultures and grow business performance.

The survey commenced on 1st December and closed on 23rd December, 2016. Employees could take the survey online or in the paper-and-pencil format. Kiosks were set up across locations to facilitate the smooth completion of the survey. 86% employees responded to the survey across the organization globally. The trust Index score for Accelya Kale Solutions Limited was 61% which indicates that a majority of our employees find it to be a great place to work.

The results were analysed at an organizational and departmental level. These were shared with the leaders in the organization and identified engagement champions along with HR team created actions plans based on the survey feedback and are working towards making Accelya an even more engaged workplace.

Top Talent Retention & Development

Undoubtedly, our employees are the most important assets for our business. They are our competitive advantage. Thus, we have a specially designed program called 'Accelerate' aimed at identifying high performing high potential employees and offering them focused learning and growth opportunities. It also aims to recognise, provide global visibility and retain them. The program has stringent entry criteria and is designed to offer varied developmental interventions at the regular intervals. The program is one of our flagship development programs and has helped us retain 87% of our critical talent this year.

Independent Auditor's Report

To the Members of Accelya Kale Solutions Limited

Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of Accelya Kale Solutions Limited ('the Company'), which comprise the Balance Sheet as at 30 June 2017, the Statement of Profit and Loss and Cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as 'the standalone financial statements').

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ('the Act') with respect to preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards issued under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014, read with Companies (Accounting Standards) Amendment Rules, 2016 applicable with effect from 1 April, 2016. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Annexure B to the Independent Auditor's Report - 30 June 2017

(Referred to in our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Accelya Kale Solutions Limited ("the Company") as of 30 June 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and

not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 30 June 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

1. Background

Accelya Kale Solutions Limited ("Accelya" or "the Company") is a software solutions provider to the global Airline and Travel industry.

Accelya delivers world class software products, managed processes, technology and hosting services. Accelya's industry solutions are driven by active partnerships with industry bodies and customers, and significant domain knowledge. Its customised approach in deploying these solutions supports clients with best fit solutions to match their requirements.

2. Summary of significant accounting policies

a) Basis of preparation of financial statements

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values. GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

b) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles in India requires the management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosures of contingent liabilities as of the date of financial statements and the reported amounts of revenue and expenses during the reporting period. The management believes that the estimates made in the preparation of the financial statements are prudent and reasonable. Actual results could differ from those estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.

c) Current and non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- It is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- (b) It is held primarily for the purpose of being traded;
- (c) It is expected to be realised within 12 months after the reporting date; or
- (d) It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date;

Current assets include the current portion of non current financial assets.

All other assets are classified as non current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- (a) It is expected to be settled in the Company's normal operating cycle;
- (b) It is held primarily for the purpose of being traded;
- (c) It is due to be settled within 12 months after the reporting date; or
- (d) The Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instrument do not affect its classification.

Current liabilities include current portion of non current financial liabilities.

All other liabilities are classified as non current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents. Generally twelve months is considered as an operating cycle.

d) Revenue recognition

Revenue is derived primarily from transaction processing and sale of software license, related implementation and maintenance service.

Revenues from transaction processing service i.e. airline ticket and coupon processing charges, is recognized based on the rates fixed in the contract with customers based on the work completed and where there is no uncertainty as to measurability or collectability of that amount.

Arrangements with customers for software development and related implementation services are classified as fixed-price contracts. Revenue from maintenance services are on a time- and -material basis.

Revenue from the sale of user licenses for software applications is recognized on transfer of the title in the user license, except in cases of multiple element contracts which require significant implementation services, where revenue for the entire arrangement is recognized over the implementation period based upon the percentage-of-completion.

Revenue from fixed-price contracts where there is no uncertainty as to measurement or collectability of consideration is recognized based on the percentage of completion. Percentage of completion is measured as a proportion of time spent on the contract till the balance sheet date to the total estimated time to complete the contract. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Cost and estimated earnings in excess of billings are classified as unbilled revenue while billing in excess of cost and estimated earnings are classified as uncertainty. Provision for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the current estimates.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last billing to the balance sheet date is recognized as unbilled revenue.

Revenue from client training, support and other services arising due to the sale of software products, is recognized as the related services are performed.

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.

Dividend income is recognized when the right to receive dividend is established.

e) Fixed assets and depreciation (including intangible assets and amortisation)

Fixed assets are stated at cost of acquisition or construction less accumulated depreciation and impairment, if any. Cost includes freight, duties, taxes and incidental expenditure relating to the acquisition and installation of fixed assets incurred up to the date the asset is ready for its intended use.

Capital work-in-progress includes the cost of fixed assets that are not ready to use at the balance sheet date.

Depreciation on fixed assets is provided pro rata for the period of use based on management's best estimate of useful lives of the assets. The useful life of the assets consider for depreciation is summarized below:

Building	30 years
Plant and machinery and computer equipment	3 to 6 years
Furniture and fixtures, Equipment and other assets	4 to 6 years
Software acquired/ developed	3 to 5 years
Vehicles	5 years
Leasehold improvements	To be amortized over the lesser of the period of lease and the useful life of the asset

For each class of assets, based on internal assessment and independent technical evaluation carried out by external valuer, the management believes that the useful lives as given above best represent the period over which management expects to use these assets. Hence the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II to the Companies Act, 2013.

f) Research and Development cost

Research costs are expensed as incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable and the Company has intention and the ability to complete and use or sell the software and the costs can be measured reliably.

g) Asset impairment

In accordance with AS 28-'Impairment of Assets', where there is an indication of impairment of the Company's assets, the carrying amounts of the Company's assets are reviewed at each balance sheet date to determine whether there is any impairment. The recoverable amount of the assets (or where applicable that of the cash generating unit to which the asset belongs) is estimated as the higher of its net selling price and its value in use. An impairment loss is recognized whenever the carrying amount of an asset or a cash generating unit exceeds its recoverable amount. Impairment loss is recognized in the statement of profit and loss.

h) Investments

Investments that are readily realisable and intended to be held for not more than a year from the date of acquisition are classified as current investments. All other investments are classified as long term investments.

Long term investments are carried at cost. Provision for diminution, is made to recognize a decline, other than temporary, in the value of long term investments and is determined separately for each individual investment. The fair value of a long-term investment is ascertained with reference to its market value, the

investee's assets and results and the expected cash flows from the investment. Current investments are carried at lower of cost and market value of each investment individually.

i) Leases

Operating lease

Lease rentals under an operating lease are recognized as an expense in the statement of profit and loss on a straight line basis over the lease term.

Finance Lease

Assets acquired under finance lease are recorded as an asset and liability at the inception of the lease and are recorded at an amount equal to lower of fair value of the leased asset and the present value of the future minimum lease payments.

j) Foreign currency transactions

Transactions denominated in foreign currency are recorded at the exchange rate prevailing on the date of transactions. Exchange differences arising on foreign exchange transactions settled during the period are recognized in the statement of profit and loss for the period.

Monetary assets and liabilities in foreign currency, which are outstanding as at the year-end, are translated at the year-end closing exchange rate and the resultant exchange differences are recognized in the statement of profit and loss. Non-monetary foreign currency items are carried at cost.

Translation of foreign operations

For translating the financial statements of foreign branches, these are classified into 'integral' and 'non integral' foreign operations.

Integral foreign operations are those which carry on their business as if they were an extension of the Company's operation. Other foreign operations are classified as non-integral.

The financial statements of an integral foreign operation are translated into Indian rupees as if the transaction of the foreign operation were those of the Company itself.

In the case of a non integral foreign operation, the assets and liabilities, both monetary and non-monetary, are translated at the closing exchange rate and income and expense items are translated at the exchange rates on the date of transaction. The resulting exchange differences are accumulated in foreign currency translation reserve. On disposal of non-integral foreign operation, the cumulative amount of foreign currency translation reserve, which pertains to that operation, is recognised as income or expense.

Derivative instruments

Forward foreign exchange contracts and other derivatives are not covered by Accounting standard (AS) 11 and relates to a firm commitment or highly probable forecasted transactions, these contracts are marked to market as on the reporting date and loss on these contracts are charged to the statement of profit and loss.

k) Employee benefits

Defined Contribution Plan

The Company's contributions during the year to Provident Fund administered by government authority are recognized in the Statement of profit and loss.

Defined Benefit Plan

The Company's net obligation in respect of gratuity is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value, and the fair value of any plan assets is deducted. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation by an independent actuary using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan are based on the market yields on Government securities as at the Balance Sheet date. Actuarial gains and losses are recognized in the statement of profit and loss.

Provision for compensated absences cost has been made based on actuarial valuation by an independent actuary at balance sheet date.

The employees of the Company are entitled to compensated absences. The employees can carryforward a portion of the unutilized accrued compensated absence and utilize it in future periods or receive cash compensation at termination of employment for the unutilized accrued compensated absence. The Company records an obligation for compensated absences in the period in which the employee renders the services that increase this entitlement. The Company measures the expected cost of compensated absence as the additional amount that the Company expects to pay as a result of the unused entitlement that has accumulated at the balance sheet date.

I) Income taxes

Income-tax expense comprises current tax and deferred tax charge or credit.

Current taxes

Provision for current income-tax is recognised in accordance with the provisions of Indian Income-tax Act, 1961 and is made annually based on the tax liability after taking credit for tax allowances and exemptions.

The Income tax Act, 1961 allows credit in respect of Minimum Alternate Tax ("MAT") paid under section 115JB, to be carried forward up to fifteen succeeding assessment years. The amount of MAT credit can be set-off only in the year in which the Company is liable to pay tax as per the normal provisions of the Income tax Act 1961, and such tax is in excess of MAT for that year. The amount of set-off would be to the extent of excess of normal income-tax over the amount of MAT calculated as if Section 115JB had been applied for that assessment year for which the set-off is being allowed.

In accordance with the guidance note on "Accounting for credit available in respect of Minimum Alternate Tax under the Income tax Act, 1961 " issued by the Institute of Chartered Accountants of India, MAT paid in accordance with the tax laws, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal tax within the eligible period and the asset can be measured reliably.

Deferred taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to timing differences that result from differences between the profits offered for income taxes and the profits as per the financial statements. Deferred tax assets and liabilities are measured using the tax rates and the tax laws that have been enacted or substantively enacted as at the balance sheet date. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in the period that includes the enactment date. Deferred tax assets on timing differences are recognized only if there is a reasonable
certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. However, deferred tax assets on the timing differences when unabsorbed depreciation and carried forward losses exist, are recognized only to the extent that there is virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax assets are reassessed for the appropriateness of their respective carrying amounts at each balance sheet date.

m) Earnings per share ('EPS')

Basic and diluted earnings per share are computed by dividing the net profit attributable to equity shareholders for the year, by the weighted average number of equity shares outstanding during the year.

The number of shares used in computing diluted earnings per share comprises of weighted average number of shares considered for deriving basic earning per share, and also the weighted average number of equity shares which may be issued on conversion of all dilutive potential shares, unless the results would be anti – dilutive.

n) Provisions and contingent liabilities

Provisions are recognized when the Company recognizes that it has a present obligation as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation and the amount can be reasonably estimated.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed.

Contingent assets are not recognized in the financial statements. However, contingent assets are assessed continuously and if it is virtually certain that economic benefit will arise, the assets and related income are recognized in the period in which the changes occur.

o) Onerous contracts

Provision for onerous contracts is recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at lower of the expected cost of terminating the contract and the expected net cost of fulfilling the contract.

b. Rights, preference and restriction attached to equity shares

The Company has a single class of equity shares. Accordingly, all equity shares rank equally with regard to dividends and share in the Company's residual assets. The equity shareholders are entitled to receive dividend as declared from time to time. The voting right of an equity shareholder on a poll (not on show of hands) is in proportion to its share of the paid-up equity capital of the Company. Voting right cannot be exercised in respect of shares on which any call or other sums presently payable have not been paid. During the year the Company has declared interim dividend of ₹ 11 per equity share of ₹10 each. For the year ended June 30, 2017, the Board of Directors have recommended a final dividend of ₹ 40 per equity share of ₹10 each. This is subject to approval of shareholders.

Failure to pay any amount called up on shares may lead to forfeiture of the shares.

On winding up of the Company, the holders of equity shares will be entitled to receive the residual assets of the Company, remaining after distribution of all preferential amounts in proportion to the number of equity shares held.

40 CORPORATE SOCIAL RESPONSIBILITY

As per the Companies Act, 2013, all companies having net worth of ₹ 500 crores or more, or turnover of ₹ 1,000 crores or more or a net profit of ₹ 5 crores or more during any financial year will be required to constitute a Corporate Social Responsibility ("CSR") committee of the Board of Directors comprising three or more directors, at least one of whom shall be an independent director. The Company has constituted a committee comprising Mr. John Johnston, Mr. Nani Javeri and Ms. Sangeeta Singh as its members. The committee is responsible for formulating and monitoring the CSR policy of the Company.

The company has implemented CSR activities through Catalysts for Social Action ("CSA") a Not-For-Profit organization dedicated to the cause of child welfare and rehabilitation for children living in orphanages. The total amount spent by the Company through CSA is ₹ 25,090,000 (previous year: ₹ 23,800,000)

Short-term loans and advances	19	78,802,616	(1,217,000)	77,585,616	Rearranged

42 The Company's management is of the opinion that its international transactions with related parties are at arms length and that the Company is in compliance with the transfer pricing legislation. Based on the above, the Company's management believes that the aforesaid legislation will not have any impact on the financial statements, particularly on the amount of tax expense and that of the provision for tax.

43 LONG TERM CONTRACTS

The Company has a process whereby periodically all long term contracts (including derivative contracts) are assessed for material foreseeable losses. At the year end, the Company has reviewed and ensured that adequate provision as required under any law/ accounting standards for material foreseeable losses on such long term contracts (including derivative contracts) has been made in the books of account.

45 ACCOUNTING FOR PROPOSED DIVIDEND

As per the requirements of pre-revised Accounting Standard 4 (AS 4), the Company used to create a liability for dividend proposed / declared after the balance sheet date if dividend related to periods covered by the financial statements. Going forward, as per AS 4(R), the Company cannot create provision for dividend proposed / declared after the balance sheet date unless a statute requires otherwise. Rather, company will need to disclose the same in notes to the financial statements.

Accordingly, the Company has disclosed dividend proposed by Board of Directors after the balance sheet date in the notes.

Had the Company continued with creation of provision for proposed dividend, its surplus in the Statement of Profit and Loss would have been lower by ₹ 718,595,861 and short-term provision would have been higher by ₹ 718,595,861 (including dividend distribution tax of ₹ 121,545,421).

46 During the year, the Company has received Show Cause cum Demand notices on account of service tax demand amounting to ₹ 48,581,562 (excluding interest and penalty) by Service Tax authorities (Certain transactions were chargeable to tax under Reverse Charge Mechanism and Cenvat credit was not eligible for certain transactions) pertaining to financial year 2011-12 to 2014-15. The Company has filed reply to Show Cause cum Demand notices with the service tax authorities.

47 OTHER MATTERS

Information with regard to other matters specified in Schedule III to the Act is either nil or not applicable to the Company for the year.

Independent Auditor's Report

To the Members of

Accelya Kale Solutions Limited

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Accelya Kale Solutions Limited ('the Holding Company') and its subsidiaries (collectively referred to as 'the Group'), comprising of the Consolidated Balance Sheet as at 30 June 2017 and the Consolidated Statement of Profit and Loss and Consolidated Cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as 'the consolidated financial statements').

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act 2013("the Act") with respect to the preparation of these consolidated financial statements in terms of requirement of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards issued under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective board of directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 30 June 2017 and their consolidated profit and their consolidated cash flows for the year ended on that date.

Annexure A to the Independent Auditor's Report - 30 June 2017

(Referred to in our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 30 June 2017, we have audited the internal financial controls over financial reporting of Accelya Kale Solutions Limited ('the Holding Company') as of that day.

Management's Responsibility for Internal Financial Controls

The Holding Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Holding Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 30 June 2017, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial control over financial reporting is restricted to the Holding Company since all the subsidiaries of the Holding Company are foreign subsidiaries, which are not subject to the Report on the Internal Financial Controls.

Kale Softech, Inc., USA	A Subsidiary of Accelya incorporated under the laws of United States of America	100%	1998-99
Zero Octa UK Limited, UK	A Subsidiary of Accelya incorporated under the laws of United Kingdom	100%	2007-08

2. Summary of significant accounting policies

a) Basis of preparation of consolidated financial statements

These consolidated financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values. GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

b) Basis of consolidation

These consolidated financial statements are prepared in accordance with the principles and procedures prescribed under AS 21- 'Consolidated Financial Statements' for the purpose of preparation and presentation of consolidated financial statements.

The financial statements of the Parent Company and its subsidiaries have been consolidated on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after eliminating intra-group balances/ transactions and resulting unrealised profits in full. Unrealised losses resulting from intra-group transactions have also been eliminated unless cost cannot be recovered. Minority interests' share of profits or losses is adjusted against income to arrive at the net income attributable to the Company's shareholders. Minority interests' share of net assets is disclosed separately in the balance sheet. The consolidated financial statements are prepared using uniform accounting policies for transactions and other similar events in similar circumstances across the Group.

c) Use of estimates

The preparation of consolidated financial statements in conformity with generally accepted accounting principles in India requires the management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosures of contingent liabilities as of the date of consolidated financial statements and the reported amounts of revenue and expenses during the

reporting period. Management believes that the estimates made in the preparation of the consolidated financial statements are prudent and reasonable. Actual results could differ from those estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.

d) Current- non-current classification

All assets and liabilities are classified into current and non current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- (a) It is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- (b) It is held primarily for the purpose of being traded;
- (c) It is expected to be realised within 12 months after the reporting date; or
- (d) It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date;

Current assets include the current portion of non current financial assets.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- (a) It is expected to be settled in the Company's normal operating cycle;
- (b) It is held primarily for the purpose of being traded;
- (c) It is due to be settled within 12 months after the reporting date; or
- (d) The Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instrument do not affect its classification.

Current liabilities include current portion of non current financial liabilities.

All other liabilities are classified as non current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents. Generally twelve months is considered as operating cycle.

e) Revenue recognition

Revenue is derived primarily from transaction processing and sale of software license, related implementation and maintenance service.

Revenues from transaction processing service i.e. airline ticket and coupon processing charges, is recognized based on the rates fixed in the contract with customers based on the work completed and where there is no uncertainty as to measurability or collectability of that amount.

Arrangements with customers for software development and related implementation services are classified as fixed-price contracts. Revenue from maintenance services are on a time and material basis.

Revenue from the sale of user licenses for software applications is recognized on transfer of the title in the user license, except in cases of multiple element contracts which require significant implementation services, where revenue for the entire arrangement is recognized over the implementation period based upon the percentage-of-completion.

Revenue from fixed-price contracts where there is no uncertainty as to measurement or collectability of consideration is recognized based on the percentage of completion. Percentage of completion is measured as a proportion of time spent on the contract till the balance sheet date to the total estimated time to complete the contract. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Cost and estimated earnings in excess of billings are classified as unbilled revenue while billing in excess of cost and estimated earnings are classified as unearned revenue. Provision for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the current estimates.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last billing to the balance sheet date is recognized as unbilled revenue.

Revenue from client training, support and other services arising due to the sale of software products, is recognized as the related services are performed.

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.

Dividend income is recognized when the right to receive dividend is established.

f) Goodwill on consolidation

Goodwill arising on the consolidation of a subsidiary represents the excess of the cost of acquisition of investment over the Group's interest in the carrying value of the identifiable assets and liabilities of the subsidiary recognized at the date of acquisition. Goodwill is initially recognized as an asset at cost and is subsequently measured at cost less any accumulated impairment losses.

For the purpose of impairment testing, goodwill is allocated to the cash-generating unit that is expected to benefit from the synergies of the business combination. Cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognized in goodwill is not reversed in a subsequent period.

g) Fixed assets and depreciation (including intangible assets and amortisation)

Fixed assets are stated at cost of acquisition or construction less accumulated depreciation and impairment, if any. Cost includes freight, duties, taxes and incidental expenditure relating to the acquisition and installation of fixed assets incurred up to the date the asset is ready for its intended use.

Capital work-in-progress includes the cost of fixed assets that are not ready to use at the balance sheet date.

Depreciation on fixed assets is provided pro rata for the period of use based on management's best estimate of useful lives of the assets. The useful life of the assets consider for depreciation is summarized below:

Goodwill	Annual impairment test whenever there is indication that goodwill may be impaired
Building	30 years
Plant and machinery and computer equipment	3 to 6 years
Furniture and fixtures, Equipment and other	4 to 6 years
assets	
Software acquired/ developed	3 to 5 years
Vehicles	5 years
Leasehold improvements	To be amortized over the lesser of the period of
	lease and the useful life of the asset

For each class of assets, based on internal assessment and independent technical evaluation carried out by external valuer, the management believes that the useful lives as given above best represent the period over which management expects to use these assets. Hence the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II to the Companies Act 2013.

h) Research and Development cost

Research costs are expensed as incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable and the Company has intention and the ability to complete and use or sell the software and the costs can be measured reliably.

i) Asset impairment

In accordance with AS 28-'Impairment of Assets', where there is an indication of impairment of the Company's assets, the carrying amounts of the Company's assets are reviewed at each balance sheet date to determine whether there is any impairment. The recoverable amount of the assets (or where applicable that of the cash generating unit to which the asset belongs) is estimated as the higher of its net selling price and its value in use. An impairment loss is recognized whenever the carrying amount of an asset or a cash generating unit exceeds its recoverable amount. Impairment loss is recognized in the statement of profit and loss.

j) Investments

Investments that are readily realisable and intended to be held for not more than a year from the date of acquisition are classified as current investments. All other investments are classified as long term investments.

Long term investments are carried at cost. Provision for diminution, is made to recognize a decline, other than temporary, in the value of long-term investments and is determined separately for each individual investment. The fair value of a long term investment is ascertained with reference to its market value, the investee's assets and results and the expected cash flows from the investment. Current investments are carried at lower of cost and market value of each investment individually.

k) Leases

Operating lease

Lease rentals under an operating lease are recognized as an expense in the statement of profit and loss on a straight line basis over the lease term.

Finance Lease

Assets acquired under finance lease are recorded as an asset and liability at the inception of the lease and are recorded at an amount equal to lower of fair value of the leased asset and the present value of the future minimum lease payments.

I) Foreign currency transactions

Transactions denominated in foreign currency are recorded at the exchange rate prevailing on the date of transactions. Exchange differences arising on foreign exchange transactions settled during the period are recognized in the statement of profit and loss for the period.

Monetary assets and liabilities in foreign currency, which are outstanding as at the year-end, are translated at the year-end closing exchange rate and the resultant exchange differences are recognized in the statement of profit and loss. Non-monetary foreign currency items are carried at cost.

Translation of foreign operations

For translating the financial statements of foreign branches, these are classified into 'integral' and 'non integral' foreign operation.

Integral foreign operations are those which carry on their business as if they were an extension of the Company's operation. Other foreign operations are classified as non-integral.

The financial statements of an integral foreign operation are translated into Indian rupees as if the transaction of the foreign operation were those of the Company itself.

In the case of a non integral foreign operation, the assets and liabilities, both monetary and nonmonetary, are translated at the closing exchange rate and income and expense items are translated at the exchange rates on the date of transaction. The resulting exchange differences are accumulated in foreign currency translation reserve. On disposal of non-integral foreign operation, the cumulative amount of foreign currency translation reserve, which pertains to that operation, is recognised as income or expense.

The functional currency of Accelya Kale Solutions Limited is the Indian Rupee. The functional currency for Zero Octa UK Limited and Kale Revenue Assurance Services Limited is the UK Pound Sterling and of Kale Softech Inc is the US Dollar. The translation of financial statements of non integral subsidiaries from the local currency to functional currency is performed for assets and liabilities using the rate prevailing at the date of the balance sheet. The items in the statement of profit and loss are translated at the average exchange rate during the period. Goodwill arising on the acquisition of non-integral operations is translated at exchange rates prevailing at the date of the balance sheet. The difference arising out of the translations are transferred to foreign currency translation reserve under reserves and surplus.

Derivative instruments

Forward foreign exchange contracts and other derivatives are not covered by Accounting standard (AS) 11 and relates to a firm commitment or highly probable forecasted transactions, these contracts are mark to market as on the reporting date and loss on these contract are charged to the statement of profit and loss.

m) Employee benefits

Defined Contribution Plan

The Company's contributions during the year to Provident Fund administered by government authority are recognized in the Statement of profit and loss.

Defined Benefit Plan

The Company's net obligation in respect of gratuity is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value, and the fair value of any plan assets is deducted. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation by an independent actuary using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan are based on the market yields on Government securities as at the Balance Sheet date. Actuarial gains and losses are recognized in the statement of profit and loss.

Provision for compensated absences cost has been made based on actuarial valuation by an independent actuary at balance sheet date.

The employees of the Company are entitled to compensated absences. The employees can carryforward a portion of the unutilized accrued compensated absence and utilize it in future periods or receive cash compensation at termination of employment for the unutilized accrued compensated absence. The Company records an obligation for compensated absences in the period in which the employee renders the services that increase this entitlement. The Company measures the expected cost of compensated absence as the additional amount that the Company expects to pay as a result of the unused entitlement that has accumulated at the balance sheet date.
n) Income taxes

Income-tax expense comprises current tax and deferred tax charge or credit.

Current taxes

Provision for current income-tax is recognised in accordance with the provisions of Indian Income-tax Act, 1961 and is made annually based on the tax liability after taking credit for tax allowances and exemptions.

The Income tax Act, 1961 allows credit in respect of Minimum Alternate Tax ("MAT") paid under section 115JB, to be carried forward up to fifteen succeeding assessment years. The amount of MAT credit can be set-off only in the year in which the Company is liable to pay tax as per the normal provisions of the Income tax Act 1961, and such tax is in excess of MAT for that year. The amount of set-off would be to the extent of excess of normal income-tax over the amount of MAT calculated as if Section 115JB had been applied for that assessment year for which the set-off is being allowed.

In accordance with the guidance note on "Accounting for credit available in respect of Minimum Alternate Tax under the Income tax Act, 1961 " issued by the Institute of Chartered Accountants of India, MAT paid in accordance with the tax laws, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal tax within the eligible period and the asset can be measured reliably.

Deferred taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to timing differences that result from differences between the profits offered for income taxes and the profits as per the financial statements. Deferred tax assets and liabilities are measured using the tax rates and the tax laws that have been enacted or substantively enacted as at the balance sheet date. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in the period that includes the enactment date. Deferred tax assets on timing differences are recognized only if there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. However, deferred tax assets on the timing differences when unabsorbed depreciation and carried forward losses exist, are recognized only to the extent that there is virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax assets are reasonable against which such deferred tax assets can be realized forward losses exist, are recognized only to the extent that there is virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax assets are reassessed for the appropriateness of their respective carrying amounts at each balance sheet date.

o) Earnings per share ('EPS')

Basic and diluted earnings per share are computed by dividing the net profit attributable to equity shareholders for the year, by the weighted average number of equity shares outstanding during the year.

The number of shares used in computing diluted earnings per share comprises of weighted average number of shares considered for deriving basic earning per share, and also the weighted average number of equity shares which may be issued on conversion of all dilutive potential shares, unless the results would be anti – dilutive.

p) Provisions and contingent liabilities

Provisions are recognized when the Company recognizes that it has a present obligation as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation and the amount can be reasonably estimated.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed.

Contingent assets are not recognized in the financial statements. However, contingent assets are assessed continuously and if it is virtually certain that economic benefit will arise, the assets and related income are recognized in the period in which the changes occur.

q) Onerous contracts

Provision for onerous contracts is recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at lower of the expected cost of terminating the contract and the expected net cost of fulfilling the contract.

b. Rights, preference and restriction attached to equity shares

The Company has a single class of equity shares. Accordingly, all equity shares rank equally with regard to dividends and share in the Company's residual assets. The equity shareholders are entitled to receive dividend as declared from time to time. The voting right of an equity shareholder on a poll (not on show of hands) is in proportion to its share of the paid-up equity capital of the Company. Voting right cannot be exercised in respect of shares on which any call or other sums presently payable have not been paid. During the year the Company has declared interim dividend of ₹ 11 per equity share of ₹10 each. For the year ended June 30, 2017, the Board of Directors have recommended a final dividend of ₹ 40 per equity share of ₹10 each. This is subject to approval of shareholders.

Failure to pay any amount called up on shares may lead to forfeiture of the shares.

On winding up of the Company, the holders of equity shares will be entitled to receive the residual assets of the Company, remaining after distribution of all preferential amounts in proportion to the number of equity shares held.

44 ACCOUNTING FOR PROPOSED DIVIDEND

As per the requirements of pre-revised Accounting Standard 4 (AS 4), the Company used to create a liability for dividend proposed / declared after the balance sheet date if dividend related to periods covered by the financial statements. Going forward, as per AS 4(R), the Company cannot create provision for dividend proposed / declared after the balance sheet date unless a statute requires otherwise. Rather, company will need to disclose the same in notes to the financial statements.

Accordingly, the Company has disclosed dividend proposed by Board of Directors after the balance sheet date in the notes.

Had the Company continued with creation of provision for proposed dividend, its surplus in the Statement of Profit and Loss would have been lower by ₹ 718,595,861 and short-term provision would have been higher by ₹ 718,595,861 (including dividend distribution tax of ₹ 121,545,421).

45 During the year, the Company has received Show Cause cum Demand notices on account of service tax demand amounting to ₹ 48,581,562 (excluding interest and penalty) by Service Tax authorities (Certain transactions were chargeable to tax under Reverse Charge Mechanism and Cenvat credit was not eligible for certain transactions) pertaining to financial year 2011-12 to 2014-15. The Company has filed reply to Show Cause cum Demand notices with the service tax authorities.
