New Jersey

Dear Sirs,

I have reviewed the accompanying balance sheet of Kale Softech, Inc., as of June 30, 2016, and the related statements of income, retained earnings and cash flows, for the financial year then ended. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I do not express such an opinion.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of financial statements.

My responsibility is to conduct the review in accordance with the Statements on Standard for Accounting and Review services issued by the American Institute of Certified Public Accountants. Those standards require us to perform the procedures to obtain assurance that there are no material modifications that should be made to the financial statements. I believe that the results of my procedures provide a reasonable basis for my report.

Based on my review, I am not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

### Turnover

Turnover represents the value of services provided under contracts to the extent that persuasive evidence of an arrangement exists, services have been rendered, the fee is determinable and its collectability is reasonably assured.

Turnover is stated net of value-added tax and credit notes.

### Accrued income

Where a contract has only been partially completed at the balance sheet date, turnover represents the value of the service provided to date based on a proportion of the total expected consideration at completion. The corresponding figure is shown as accrued income under debtors.

### Provision for credit notes

A provision is made for credit notes in respect of contractual obligations to issue such notes.

### Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Fixtures and fittings	-	25% on cost
Computer equipment	-	25% on cost

Property, plant and equipment are initially recorded at cost of purchase or construction and are depreciated on a straight-line basis, except for land, which is not depreciated.

### Taxation

Tax on the profit or loss for the year comprises current and deferred tax. Tax is recognised in the profit and loss account except to the extent that it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided on temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised.

### Foreign currencies

#### (a) Functional and presentation currency

Items included in the financial statements of the company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in 'Pounds Sterling' (£), which is also the company's functional currency.

#### (b) Transactions and balances

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the statement of financial position date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.

### Hire purchase and leasing commitments

Rentals paid under operating leases are charged to the profit or loss on a straight line basis over the period of the lease.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30TH JUNE 2016

**Estimates and judgements**

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The judgements, estimates and assumptions which have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities are discussed below.

**- Accruals & Provisions**

The Company may be required to recognise provisions for impairment of trade receivables and post year end credit notes in respect of revenue, employee bonuses and unpaid holiday leaves, dilapidations, onerous leases and corporation tax in its financial statements which may requires management to make judgements. The judgements, estimates and associated assumptions necessary to calculate these provisions are based on historical experience and other reasonable factors.
